Subject: Re: Updated Storm Water Management Plan

Joe,

I believe we may have a misunderstanding. The updated "Surface Water Management Plan" you provided below is not the document we requested under Condition 5) of our 28 January 2011 approval to resume operation of Cell E6. We asked for a revision to your Storm Water Pollution Control Plan ("SWPCP"). Your current SWPCP is referenced in the "Surface Water Management Plan" you provided; it's your third reference titled "Earth Tech, Inc. 2009a. *Storm Water Pollution Control Plan, Revision 3; Waimanalo Gulch Sanitary Landfill, Oahu, Hawaii*. January." Please provide a revised "SWPCP" per our Condition 5 requirement.

Subject: Updated Storm Water Management Plan

Greetings all.

Please find attached the recently updated Storm Water Management Plan for the Waimanalo Gulch Sanitary Landfill, as required by Condition 5) of EPA 28-Jan-11 Approval to Operate Cell #E6: "No later than fifteen (15) days [Extension granted to WMH by EPA on 2/10/11] after the completion of a functional storm water diversion structure (Western Drainage System) as required in 19.b. of EPA's Order, WM must revise and submit to EPA its SWPCP to incorporate the functional

Western Drainage System and all ancillary storm water connections into its revised SWPCP consistent with the requirements of its storm water general permit." Please let me know if you have any questions.

Best regards,

Joe Whelan

General Manager
Waste Management of Hawaii
808-668-2985, ext. 15 Office
808-668-1366 Fax
808-479-4610 Mobile

Waste Management's landfills provide over 17,000 acres of protected land for wildlife habitats and 15 landfills are certified by the Wildlife Habitat Council.

Waste Management recycles enough paper every year to save 41 million trees. Please recycle any printed emails. [attachment "SWM Plan 031111.pdf" deleted by Stephen Tyahla/R9/USEPA/US]
